

Your Business Matters.
We help Make IT Happen.

Emil Genchev Group® MANAGED IT SERVICES

EMIL GENCHEV GROUP LTD

Growing your business is your top priority. Taking care of your IT infrastructure is ours.

Today, many organizations face the challenge of running their core business and maintaining a cost-effective and optimized IT infrastructure. With the rapidly changing IT landscape and the continual emergence of advanced technologies, it can be difficult to stay ahead of the IT curve and keep your business running at the same time.

Our Managed IT Services team can manage, maintain, and support your entire IT infrastructure. We keep your business up and running at optimum performance levels while helping you save time and money. From the data center to the desktop, we meet all your day-to-day IT challenges by leveraging our specialized team of experts. Our team customizes a strategy that drives down costs while improving the consistency, security, and quality of your IT experience. Here are the benefits of working with us:

- Predictable and reduced operational costs with a fixed monthly fee to cover your unique needs
- Proactive IT support that improves reliability and security
- Clear visibility of your current technology with support from a virtual CIO to help you plan and implement your future strategy
- National UK-based helpdesk
- Access to a wide range of specialized engineers

NATIONAL HELP DESK (UK-BASED)

Our UK-based helpdesk comprises highly skilled engineers who focus on providing timely and high-quality solutions for your issues. You can also get customized access to our support, depending on your needs – we can provide round-the-clock assistance or just help out during your business hours. Choose what works for you. Specific services include:

- Support for your endpoints
- Dispatch maintenance (Patching, AV) to your workstations
- Resolution of service tickets
- Triage and escalation
- Moves, adds, and changes

DEDICATED NETWORK ADMIN

The dedicated Network Admin assigned to your account is responsible for managing and updating your IT network to keep it running smoothly. Our Network Admins are highly competent and can easily recognize areas that need improvement. They are knowledgeable on all the latest updates in software and will ensure that your business's network always remains updated. Services include:

- Develop and maintain documentation of the client network, including topology and IT assets
- Implement technology standards for efficiency, security, and compliance
- Conduct on-site visits for proactive and preventative maintenance

MANAGED DATA PROTECTION

Our data protection solutions enable you to protect your critical data assets, whether on-premises or in the cloud. Our team of highly qualified engineers work with you to establish the ideal level of security for your organization. Services include:

- Backup support (local and cloud)
- Restores (file and folder as well as monthly restores)
- Data recovery support
- Failover support

DEDICATED VIRTUAL CIO (vCIO)

As part of our Managed Services offering, a dedicated Virtual CIO is assigned to your account. They are a trusted advisor who will meet with you regularly to ensure that your technology is aligned with your organization's goals.

Services include:

- Development and support of IT strategy and budget planning quarterly business reviews to plan technology and provide short-term/long-term IT budget plans
- Ongoing guidance to better identify and understand business risks

REMOTE MONITORING AND MANAGEMENT

Our team provides remote monitoring and management to proactively monitor your endpoints, networks, and computers. You can choose the level of support that is right for your organization. Services include:

- Infrastructure support (firewall, network, servers)
- Vendor management (line of business applications, voice, ISP)
- Windows antivirus
- Microsoft Office patching
- Email security (AV/spam/filtering/threat detection)

Emil Genchev Group® Managed IT Services

Over the last 6 years, we have refined our capabilities by bringing together the finest engineering talent and processes to provide the very best IT support.
